- Natural Sweet Berry
- Limited Mushroom

I believe they would avoid encountering people and only rummage through rubbish alone.

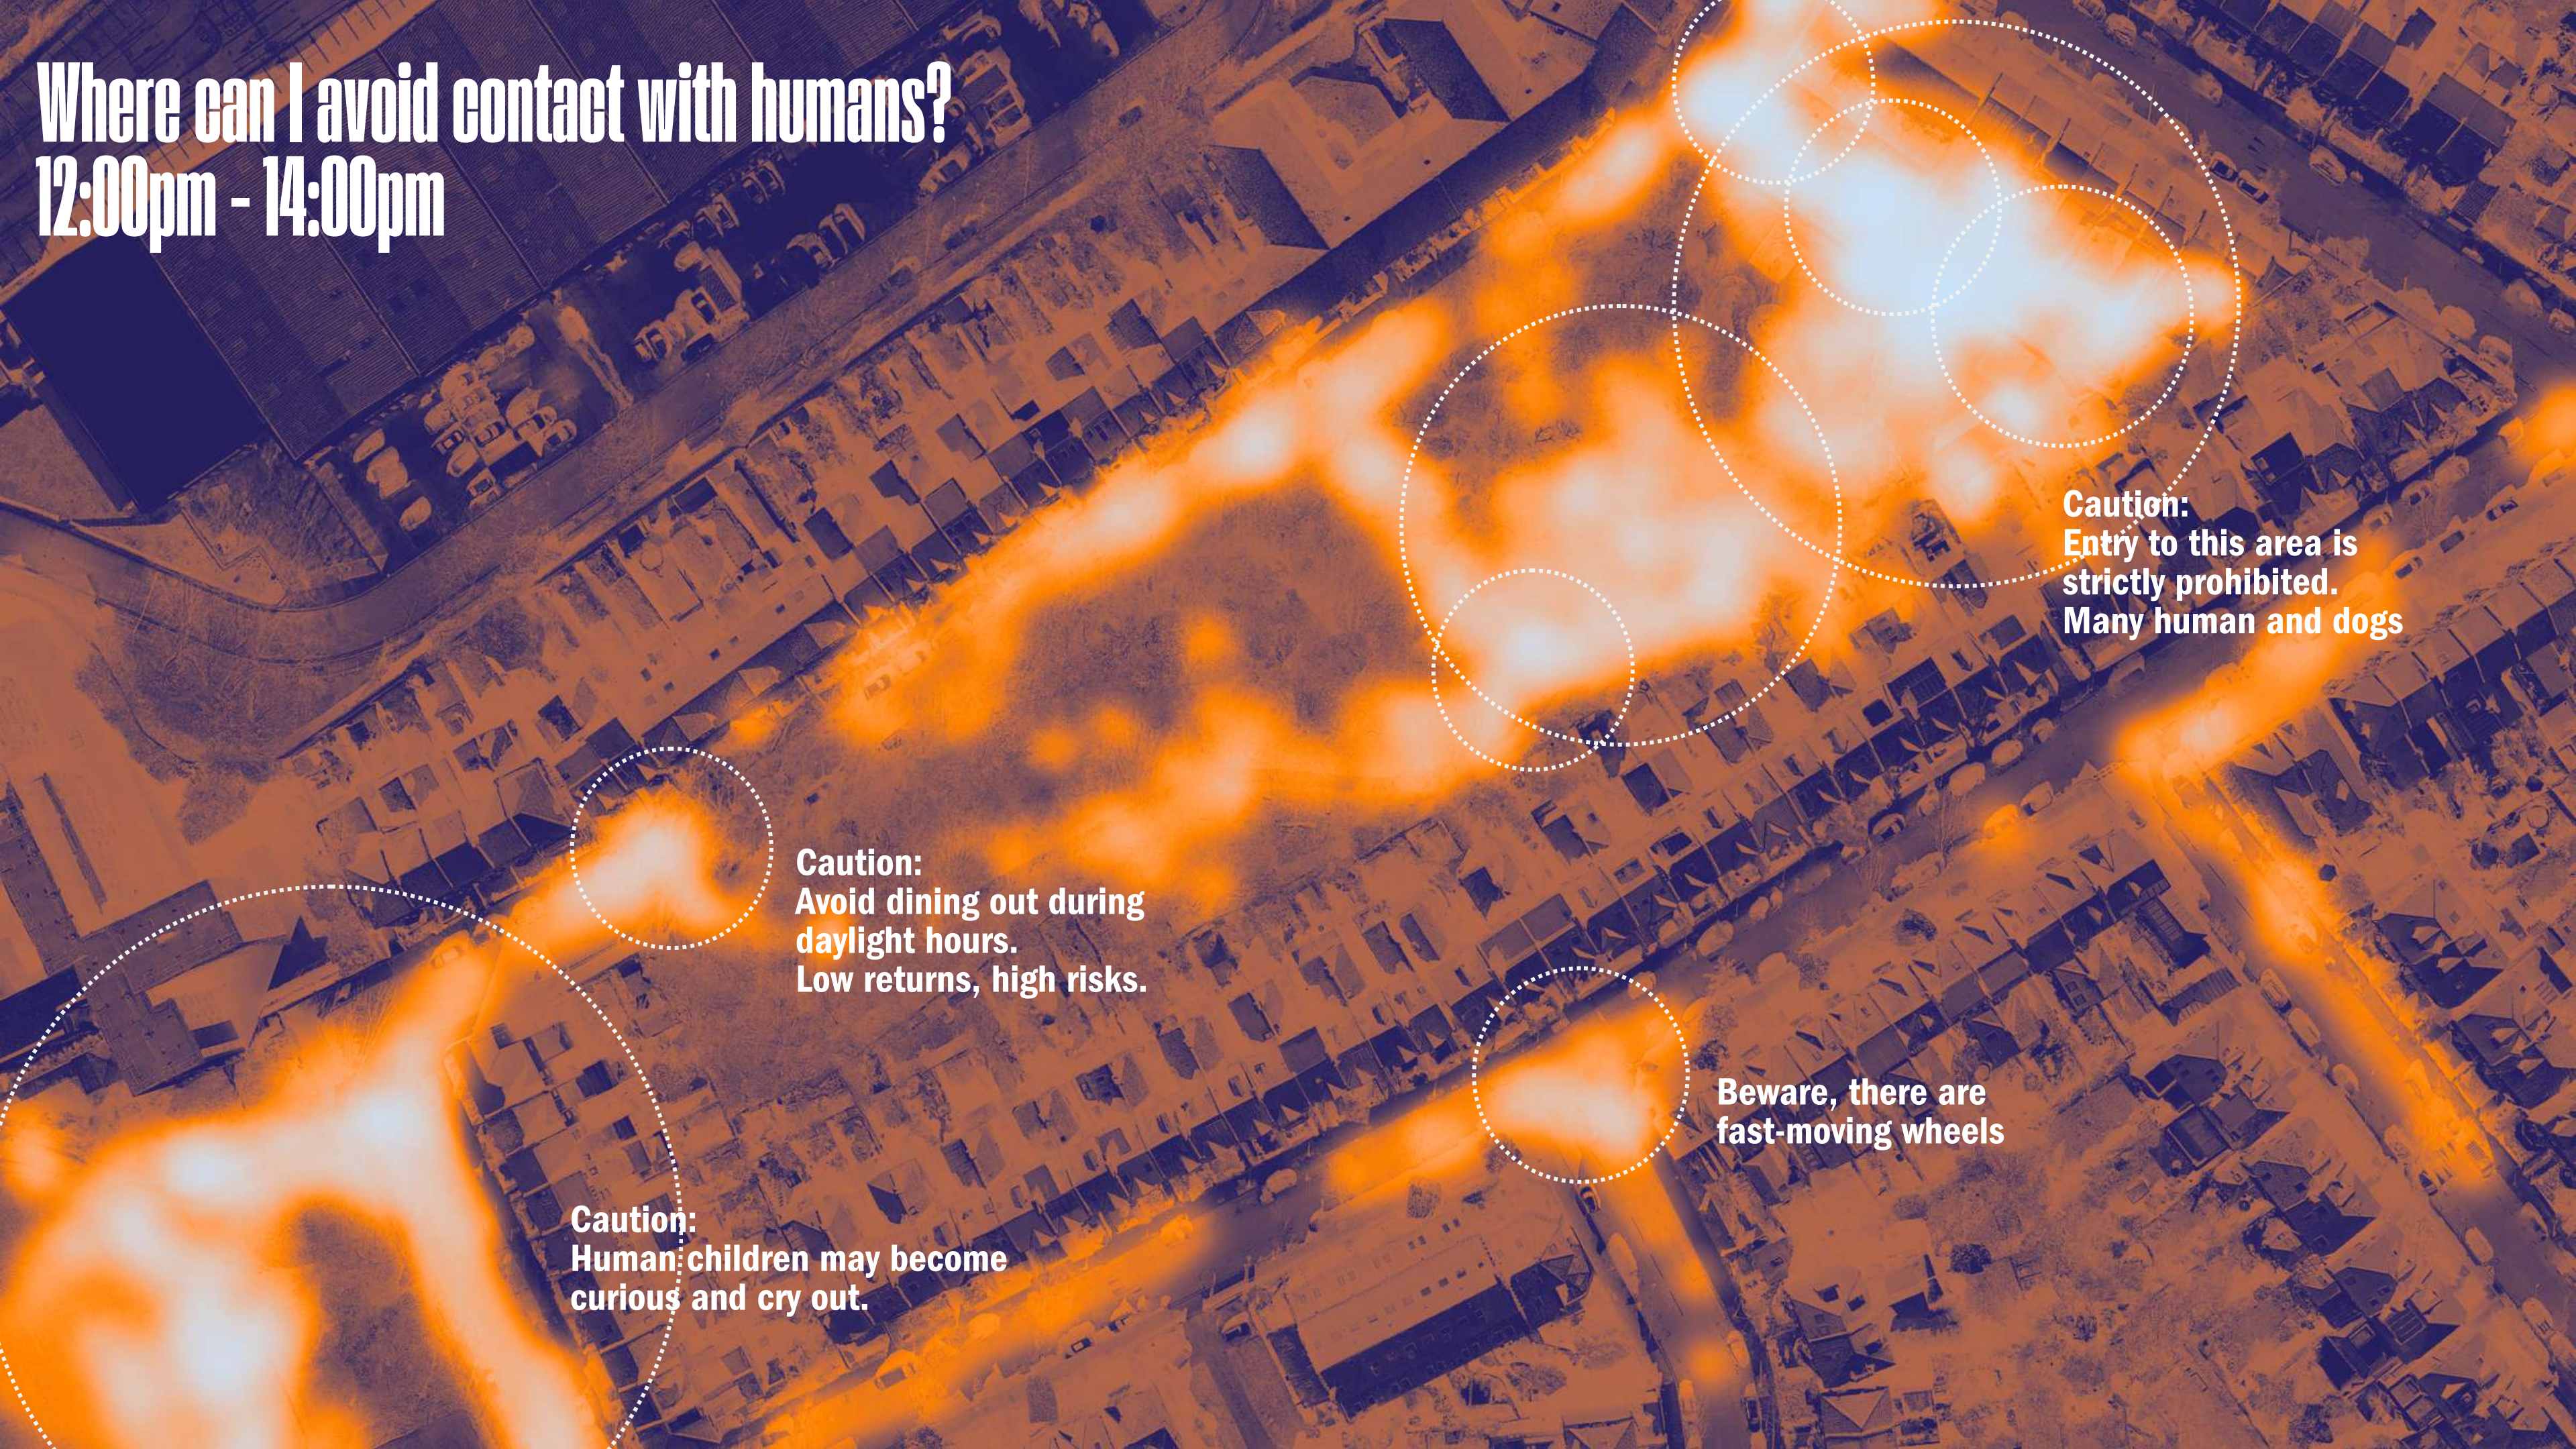

Where can I avoid contact with humans?

7:00 - 8:00 am

Beware, there are fast-moving wheels

Beware, there are fast-moving wheels

Beware, always meet people who take an interest in us.

Where can I avoid contact with humans?

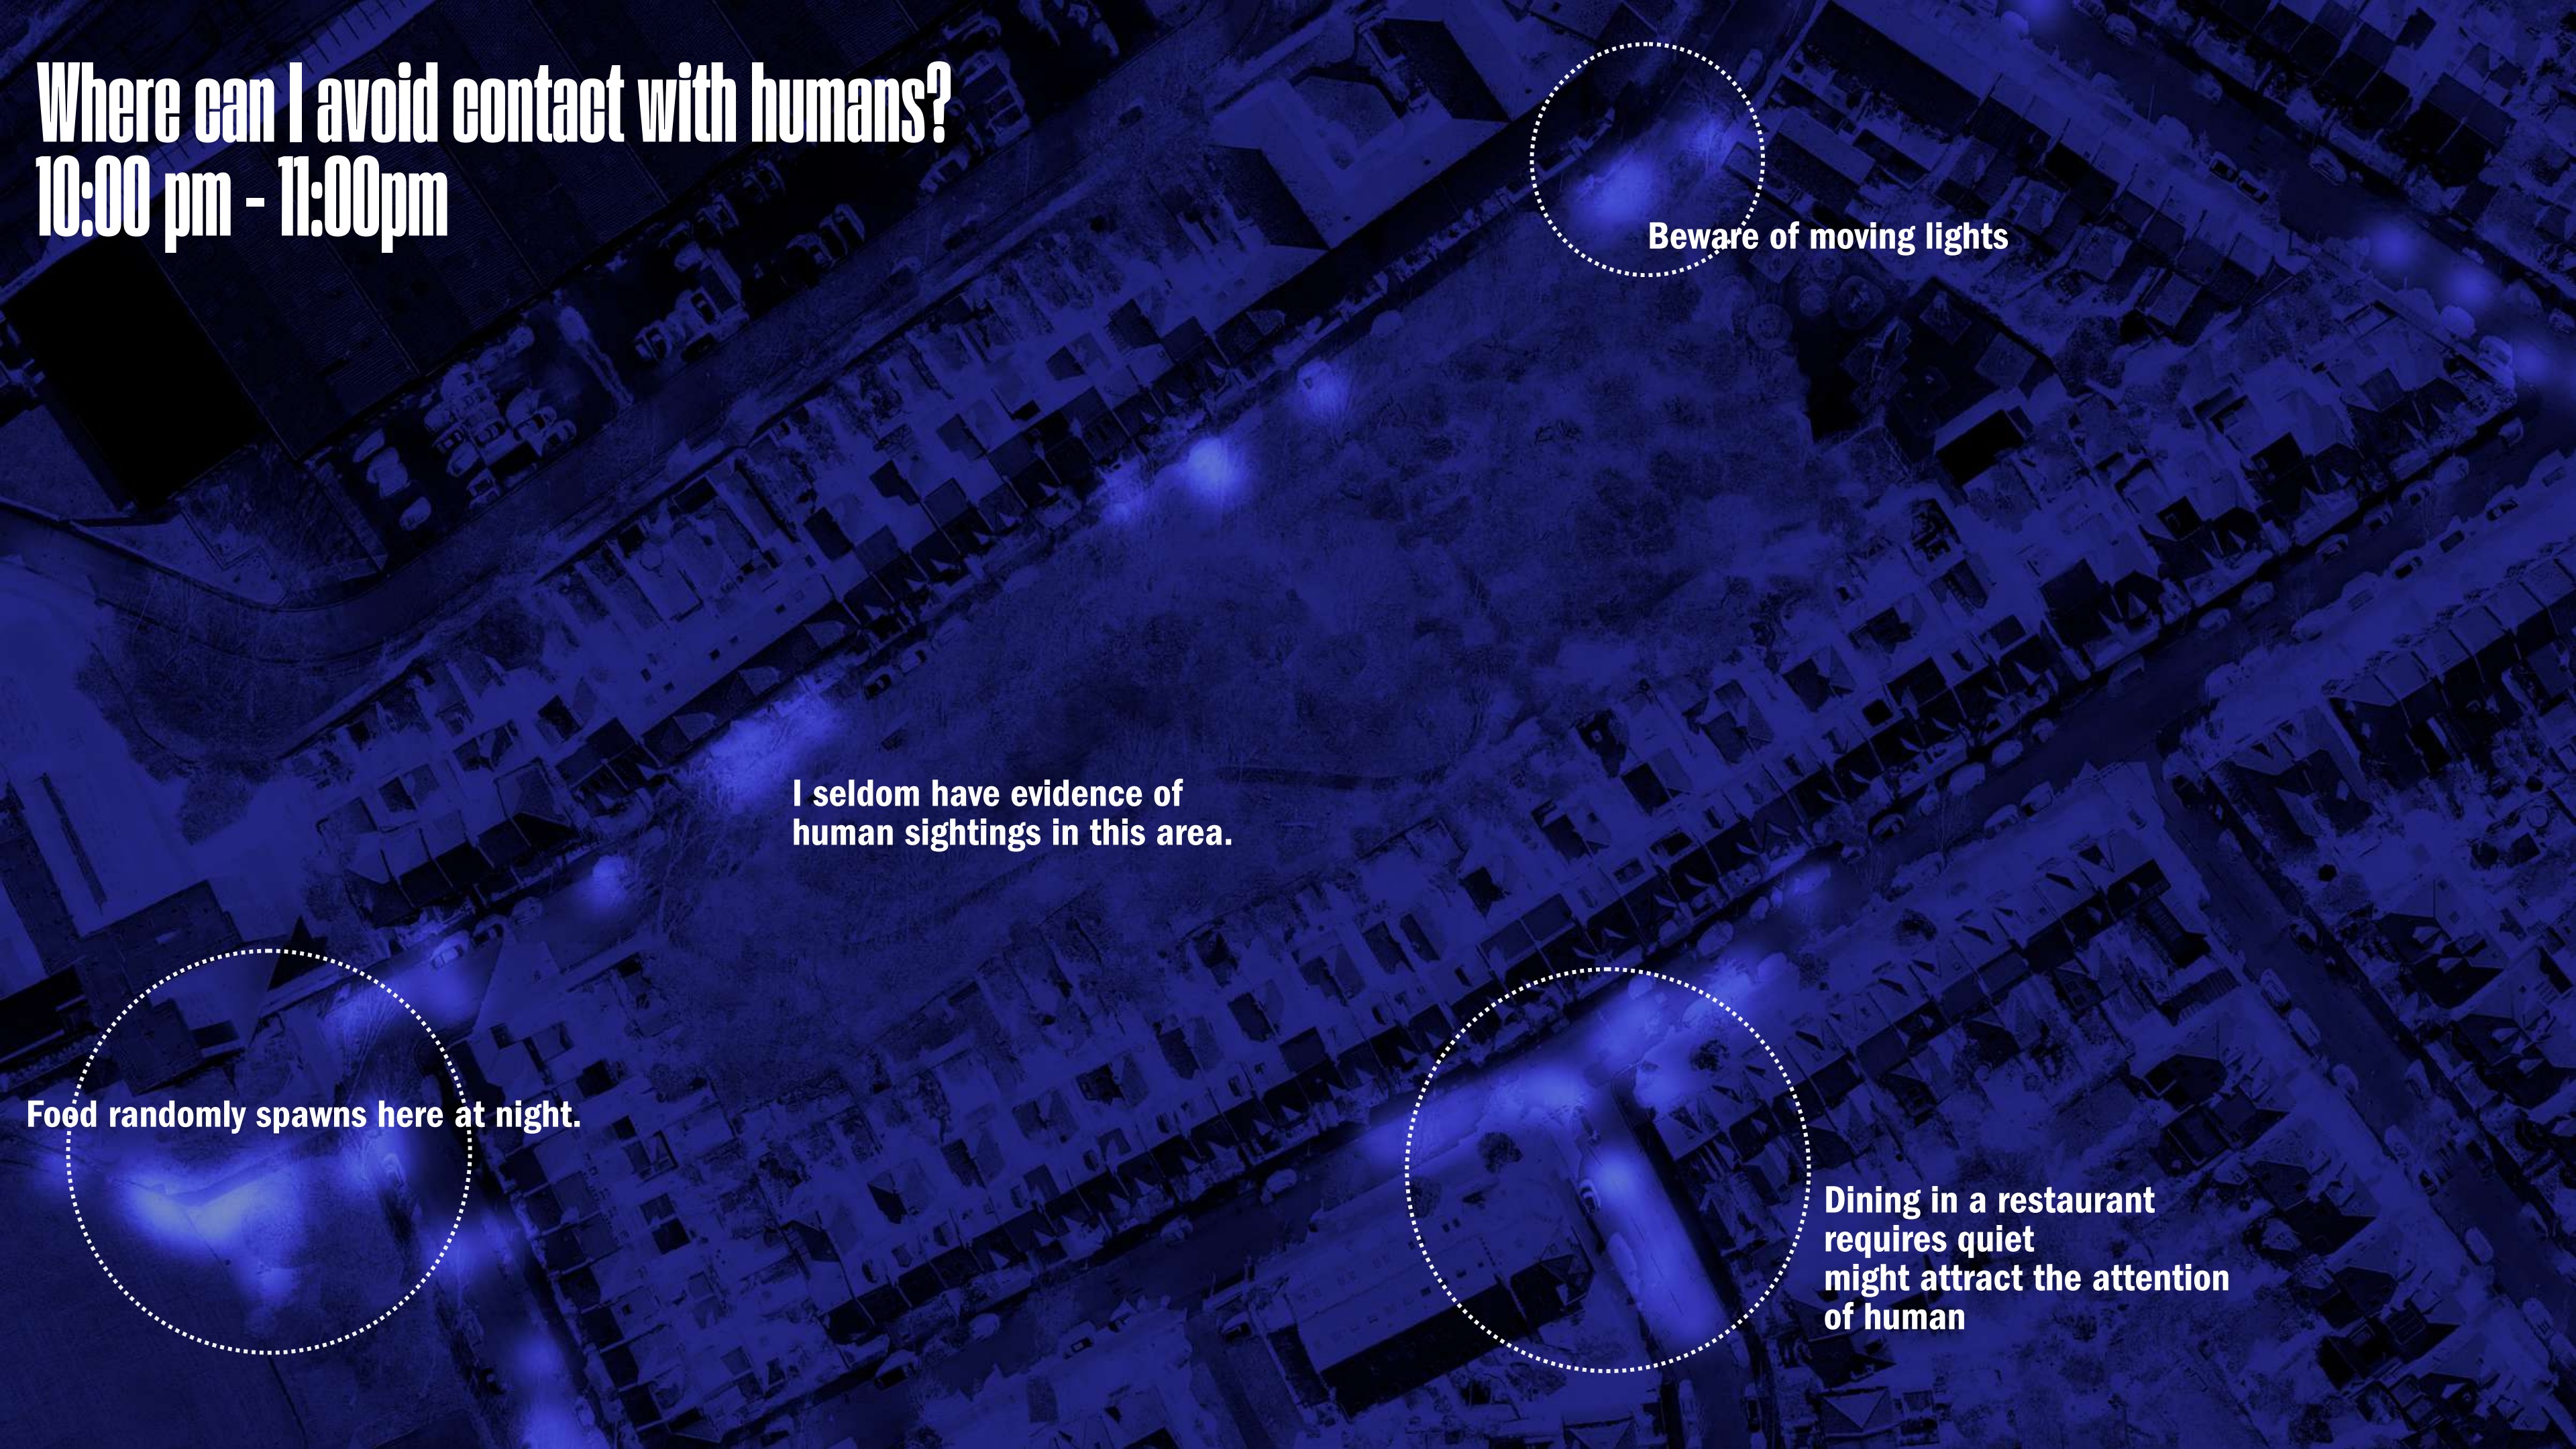

12:00pm - 14:00pm

Caution:
Entry to this area is
strictly prohibited.
Many human and dogs

Caution:
Avoid dining out during
daylight hours.
Low returns, high risks.

**Beware, there are
fast-moving wheels**

Caution:
Human children may become
curious and cry out.

Where can I avoid contact with humans?

10:00 pm - 11:00pm

Beware of moving lights

I seldom have evidence of human sightings in this area.

Food randomly spawns here at night.

Dining in a restaurant requires quiet might attract the attention of human

If I were A PHOTOGRAPHER FOX

UNIT 1
METHODS OF INVESTIGATING

The differing structures and cellular compositions result in the animal eye perceiving the world differently from ours.

**Foxes are dichromatic vision animals
Can distinguish between blue and yellow, but not red or orange.**
